2. Material accounting policies

2.1 Basis of preparation

This set of condensed consolidated interim financial statements for the year ended 31 December 2023 have been prepared in accordance with Singapore Financial Reporting Standards (International) (“SFRS(I)”) 1-34 *Interim Financial Reporting*. This set of condensed consolidated interim financial statements does not contain all the disclosures included in the annual report of Keppel REIT for the financial year ended 31 December 2022 (“Annual Report 2022”). Accordingly, this report should be read in conjunction with Annual Report 2022 and public announcements made during the interim reporting period.

2.2 Changes in accounting policies

The accounting policies adopted by the Group in the preparation of the condensed consolidated interim financial statements are consistent with those used in the preparation of Annual Report 2022, except in the current financial year, the Group has adopted all the new and revised standards that are effective for annual periods beginning on 1 January 2023. The adoption of these standards did not have any effect of the financial performance or position of the Group.

2.3 Interest Rate Benchmark Reform – Phase 2

The Group had adopted the amendments to SFRS(I) 9, SFRS(I) 1-39, SFRS(I) 7 and SFRS(I) 16 *Interest Rate Benchmark Reform – Phase 2 amendments* (collectively the “Phase 2 amendments”), that were effective from 1 January 2021.

ADDITIONAL NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
For the year ended 31 December 2023**2. Material accounting policies** (continued)**2.3 Interest Rate Benchmark Reform – Phase 2** (continued)**Hedge relationships**

The Phase 2 amendments address issues arising during the interest rate benchmark reform (“IBOR reform”), including specifying when hedge designations and documentation should be updated, and when amounts accumulated in cash flow hedge reserve should be recognised in profit or loss.

Financial instruments measured at amortised cost

The Phase 2 amendments require that, for financial instruments measured at amortised cost, changes to the basis for determining the contractual cash flows required by the IBOR reform are reflected by adjusting their respective effective interest rate. No immediate gain or loss is recognised.

These expedients are only applicable to changes that are required by the IBOR reform, which is the case if, and only if, the change is necessary as a direct consequence of the IBOR reform and the new basis for determining the contractual cash flows is economically equivalent to the basis immediately preceding the change.

For the year ended 31 December 2023, the Group has applied the practical expedients provided under the Phase 2 amendments to gross borrowings of \$100,000,000 which transitioned from the Singapore Swap Offer Rate (“SOR”) to the Singapore Overnight Rate Average (“SORA”).

Effect of IBOR reform

The Group’s exposure arising from the IBOR reform predominantly pertained to its variable rate borrowings that were referenced to the SOR. A significant portion of these borrowings were hedged using interest rate swaps, which had been designated as cash flow hedges.

The SOR has ceased publication after 30 June 2023, and it has been replaced by the SORA. As at 31 December 2023, all financial instruments of the Group and Trust that were affected by the IBOR reform have been transitioned to the SORA.

2.4 Critical accounting judgements and estimates

The significant areas of estimation, uncertainty and critical judgements in applying accounting policies disclosed in Annual Report 2022 remain relevant. Please refer to Note 5 for more information on the valuation of investment properties as at 31 December 2023.

5. Fair value of financial instruments and investment properties

The fair value of a financial instrument is the amount at which the instrument could be exchanged or settled between knowledgeable and willing parties in an arm's length transaction other than in a forced or liquidation sale.

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- (i) Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can assess at the measurement date;
- (ii) Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- (iii) Level 3 – Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in their entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Level 2 fair value measurements

Forward currency contracts and interest rate swaps are valued using valuation techniques with market observable inputs. The most frequently applied valuation technique includes forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, interest rate curves and forward rate curves.

5. Fair value of financial instruments and investment properties (continued)

Level 3 fair value measurements – Investment properties

The Group engages external, independent and qualified valuers to determine the fair value of the Group's investment properties at least once at the end of every financial year. As at 31 December 2023, the Group has obtained valuations by external valuers on its investment properties.

The Manager is responsible for selecting and engaging valuation experts that possess the relevant credentials and knowledge of valuation of investment properties. In accordance to the CIS Code, the Group rotates the independent valuers every two years.

Management reviews the appropriateness of the valuation methodologies and assumptions adopted by the external valuers.

Significant changes in fair value measurements from period to period are evaluated by management for reasonableness. Key drivers of the changes are identified and assessed for reasonableness against relevant information from independent external sources, or internal sources if necessary and appropriate. Significant valuation issues are reported to the Audit and Risk Committee.

The following table presents the valuation techniques and key inputs that were used to determine the fair value of investment properties categorised under Level 3 of the fair value hierarchy:

Description	Fair value \$'000	Valuation techniques	Unobservable inputs	Range of unobservable inputs	Relationship of unobservable inputs to fair value
<u>As at 31 December 2023</u>					
Investment properties	4,927,549	Capitalisation approach	Capitalisation rate	2.70% - 6.13%	The higher the rate, the lower the fair value
		Discounted cash flow analysis	Discount rate	2.50% - 6.88%	The higher the rate, the lower the fair value
		Direct comparison method	Transacted prices of comparable properties	\$487/sf - \$1,843/sf	The higher the price, the higher the fair value
<u>As at 31 December 2022</u>					
Investment properties	4,917,045	Capitalisation approach	Capitalisation rate	2.70% - 5.38%	The higher the rate, the lower the fair value
		Discounted cash flow analysis	Discount rate	2.50% - 6.75%	The higher the rate, the lower the fair value
		Direct comparison method	Transacted prices of comparable properties	\$735/sf - \$2,715/sf	The higher the price, the higher the fair value

The investment properties categorised under Level 3 of the fair value hierarchy are generally sensitive to the various unobservable inputs tabled above. A significant movement of each input would result in a significant change to the fair value of the respective investment properties.

ADDITIONAL NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS For the year ended 31 December 2023

5. Fair value of financial instruments and investment properties (continued)

Level 3 fair value measurements – Financial assets at fair value through profit or loss

Rental support provided by the vendor or developer of investment properties to the Group is classified as financial assets at fair value through profit or loss.

Fair value adjustments due to changes in estimated cash flows are recognised as net change in fair value of financial assets at fair value through profit or loss in the condensed Consolidated Statement of Profit or Loss.

The financial assets at fair value through profit or loss held as current and non-current assets pertain to rental support provided by the developer of 2 Blue Street in lieu of spaces which remain unleased for up to a period of three years after practical completion. The fair value as at 31 December 2023 was determined by the external valuer of 2 Blue Street, contemporaneously in their valuation of the investment property. An increase/decrease in the assumed level and period of leasing commitment would result in a decrease/increase to its fair value. Please refer to the fair value measurements of investment properties above for more information on the valuation of the investment property.

Fair value of financial instruments by classes that are not carried at fair value and whose carrying amounts are not reasonable approximation of fair value

The Manager has determined that the carrying amounts of cash and bank balances, trade and other receivables, trade and other payables, security deposits and current borrowings reasonably approximate their fair values. The carrying amounts of advances to associates and floating-rate borrowings reasonably approximate their fair values because they are floating rate instruments that are repriced to market interest rates on or near the end of the reporting period.

The fair values of non-current fixed-rate borrowings as at 31 December 2023 and 31 December 2022 are as stated below. They are estimated using discounted cash flow analyses based on current rates for similar types of borrowing arrangements.

	<u>Group</u> Carrying value \$'000	Fair value \$'000
As at 31 December 2023		
Borrowings (non-current)	350,000	337,820
As at 31 December 2022		
Borrowings (non-current)	413,165	380,521

6. Portfolio reporting

The Group's business is investing in real estate and real estate-related assets which are predominantly used for commercial purposes. All its existing properties are located in Singapore, Australia, South Korea and Japan.

Discrete financial information is provided to the Board on a property by property basis. The information provided includes net rental (including property income and property expenses) and the value of the investment properties. The Board is of the view that portfolio reporting is appropriate as the Group's business is investing in prime commercial properties located in the key business districts of Singapore, Australia, South Korea and Japan. In making this judgement, the Board considers the nature and location of these properties which are similar for the entire portfolio of the Group.

Investments in One Raffles Quay and Marina Bay Financial Centre are held through one-third interests in ORQPL, BFCDLLP and CBDPL, investments in 8 Chifley Square and David Malcolm Justice Centre are held through 50% interests in Mirvac 8 Chifley Trust ("M8CT") and Mirvac (Old Treasury) Trust ("MOTT"), and the information provided below is in relation to the properties.

C. REVIEW OF PERFORMANCE

Review of Performance for 2H2023 vs 2H2022

Property income and net property income for 2H2023 were \$118.2 million and \$92.5 million respectively. These were higher as compared to property income and net property income of \$109.5 million and \$86.5 million respectively for 2H2022. The increase was mainly attributable to higher property income and higher net property income from Ocean Financial Centre, Keppel Bay Tower, 8 Exhibition Street and KR Ginza II which was acquired on 30 November 2022. This was partially offset by lower net property income from Victoria Police Centre and Pinnacle Office Park due mainly to a weaker Australian dollar.

Profit before tax for 2H2023 was \$125.7 million as compared to \$242.4 million for 2H2022. The decrease was mainly attributable to lower fair value gain on investment properties in 2H2023 as compared to 2H2022, lower interest income due mainly to repayment of advances by an associate, lower net property income from Victoria Police Centre and Pinnacle Office Park, net change in fair value of derivatives, net change in fair value of financial assets at fair value through profit or loss, higher manager's management fees and higher borrowing costs, partially offset by higher net property income from Ocean Financial Centre, Keppel Bay Tower, 8 Exhibition Street and KR Ginza II, higher rental support, higher share of results of associates and joint ventures, lower trust expenses and net foreign exchange differences.

Review of Performance for FY2023 vs FY2022

Property income and net property income for FY2023 were \$233.1 million and \$182.4 million respectively. These were higher as compared to property income and net property income of \$219.3 million and \$175.9 million respectively for FY2022. The increase was due mainly to contribution following the acquisition of KR Ginza II in November 2022, as well as higher property income and net property income from Ocean Financial Centre, Keppel Bay Tower and 8 Exhibition Street. This was offset partially by lower property income and net property income from Victoria Police Centre and Pinnacle Office Park due to a weaker Australian dollar, as well as lower property income and net property income from T Tower due to tenancy changes and a weaker Korean Won.

Profit before tax for FY2023 was \$208.1 million as compared to \$450.4 million for FY2022. The decrease was mainly attributable to lower fair value gain on investment properties in FY2023 as compared to FY2022, lower interest income, higher manager's management fees, higher borrowing costs, lower net property income from Victoria Police Centre, Pinnacle Office Park and T Tower, net change in fair value of financial assets at fair value through profit or loss and net change in fair value of derivatives. These were partially offset by contribution following the acquisition of KR Ginza II in November 2022, higher property income and net property income from Ocean Financial Centre, Keppel Bay Tower and 8 Exhibition Street, higher share of results of associates and joint ventures, higher rental support and net foreign exchange differences.

Keppel REIT remains focused on delivering sustainable long-term total return to Unitholders and the Manager will continue to proactively manage the portfolio and exercise prudence in capital management.

F. RISK FACTORS AND RISK MANAGEMENT

The Manager ascribes importance to risk management and constantly takes initiatives to systematically review the risks it faces and mitigate them. Some of the key risks that the Manager has identified are as follows:

Interest rate risk

The Manager constantly monitors its exposure to changes in interest rates of its interest-bearing financial liabilities. Interest rate risk is managed on an on-going basis with the primary objective of limiting the extent to which net interest expense can be affected by adverse movements in interest rates through financial instruments or other suitable financial products.

Liquidity risk

The Manager monitors and maintains Keppel REIT's cash flow position and working capital to ensure that there are adequate liquid reserves in terms of cash and credit facilities to meet short-term obligations. Steps have been taken to plan for funding and expense requirements so as to manage the cash position at any point of time.

Credit risk

Credit risk assessments of tenants are carried out by way of evaluation of information from corporate searches conducted prior to the signing of lease agreements. Tenants are required to pay a security deposit as a multiple of monthly rents. In addition, the Manager also monitors the tenant mix.

Currency risk

The Group's foreign currency risk relates mainly to its exposure from its investments in Australia, South Korea and Japan, and the regular distributable income and interest income from these investments. The Manager monitors the Group's foreign currency exposure on an on-going basis and manages its exposure to adverse movements in foreign currency exchange rates through financial instruments or other suitable financial products.

Operational risk

Measures have been put in place to manage expenses, actively monitor rental payments from tenants and continually evaluate the Group's counter-parties. In addition, the Manager also performs an annual review of the adequacy and appropriateness of insurance coverage, disaster and pandemic business continuity plans, and updates and modifies them regularly.

The Manager is also pro-actively engaging with existing and potential tenants to ensure the Manager is aware of the changing needs of tenants so that it can adjust its leasing strategy and asset enhancement plans accordingly.
